

Aaushi Kamble

Product Manager · Enterprise Data Platforms · ML/AI Products
Email: ayukamble@gmail.com | Tel: +91 9805091076 | [LinkedIn](#)

Summary

Product Manager with 4+ years of experience building and scaling data-driven products across eCommerce and enterprise platforms. Proven ability to define product roadmaps, translate user needs into clear requirements, and lead cross-functional teams from ideation to launch. Strong focus on execution, rapid iteration, and driving measurable outcomes in fast-paced environments.

Professional Experience

Meesho | Associate Manager, Product – Pricing and Seller Operations

Feb 2025 – Jan 2026 | Bengaluru, India

Heavyweight Pricing Products

- Led 0→1 development of an ML + GenAI-based weight classification platform, improving accuracy (40% → 70%), automating pricing for ~50% of orders, and driving a **33% increase in Heavyweight NMV contribution**.
- Scaled platform coverage across 49 sub-categories using rule-based and ML-driven inference systems, **reducing manual weight corrections by 60%** and improving system scalability.

Meesho Fast (Seller Panel)

- Led end-to-end user research (**50+ seller and expert interviews**) to identify dispatch latency root causes; translated findings into PRDs and user stories that drove seller panel enhancements.
- Conceptualized and launched Meesho Fast, onboarding **~200 sellers in Delhi-NCR Lane** and driving improved dispatch timelines via structured incentives and a KAM-led scaling model.

SLB (Schlumberger) | Product Analytics Engineer, Operational Financial Planning

Aug 2020 – Oct 2023 | Pune, India

- Owned the product strategy, roadmap, prioritization, and delivery for SLB's global Operational Financial Planning (OFP) platform, used by **250+ planners across \$6B business units**, aligning priorities with senior finance and operations leaders.
- Led a **cross-functional team of 8** to build and scale enterprise finance data products, supporting financial planning, including downstream **data lake and data warehousing workflows**.
- Owned and governed **10+ financial KPIs** across cost allocation, forecasting, and operational finance workflows, ensuring data accuracy, auditability, and compliance with financial controls.
- Drove end-to-end delivery of enterprise data pipelines, **reducing processing time by 75%** while ensuring 95%+ uptime across APIs and backend systems, improving data integrity for downstream financial processes.
- Improved product adoption and usability by partnering with UX and engineering teams to design in-product guidance and self-serve learning, **reducing support tickets by ~60%**.

Awards

- **Performance Reward, Schlumberger** (2022, 2023): Top 10% performance-based salary adjustment.
- **Reward of Excellence, PITS Schlumberger** (2021): Team award for delivering a high-impact application.
- **Semi-Finalist, Swadeshi Microprocessor Challenge** (2021): Top 100 of 6169 teams; won ₹100,000.

Education

Indian Institute of Technology, Roorkee – B.Tech. in Electronics and Communication Engineering (2016-2020)

Founding Joint Secretary, Stand-Up Club, IITR · Editor, Watch Out, Student Media Body

Skills

Product: Product Strategy · Roadmapping · OKR Setting · Backlog Prioritization · PRD / User Story Writing · Epics · Sprint Planning · Iterative Development · Agile Scrum · Stakeholder Management · User Research · Go-to-Market · Business Case Development · Design Thinking

Technical: SQL · Python · Machine Learning · GenAI · Enterprise Data Platforms · ETL · Data Engineering · Data Modeling · Data Governance · Big Data · Cloud Data Platforms · API Integrations · Vector Databases · Retrieval Augmented Generation · Embedding Models

Volunteering

Zero Gravity, IIT Roorkee Chapter: Mentored freshmen on internships and placements.
